

Add-on display kit to TEC controllers

The DPY-1113 is an add-on display kit for TEC Family Peltier controllers.

From the TEC Service Software it is possible to choose the information to be displayed, e.g. temperature, voltage, current and status.

This ready-to-use kit including a cable and connector is particularly suitable for stand-alone operation of single or dual channel controller setups.

The DPY-1113 status display kit is supported from firmware v1.60 and upwards, configuration information is provided in the TEC-Family user manual.

RoHS
COMPLIANT

Back side

Features

- 2 x 16 Char OLED Display
- Cable length: approx. 50 cm
